

# Stout ALUMNI NEWSLETTER

Volume VII Number 1

STOUT STATE COLLEGE

MENOMONIE, WISCONSIN

March 1, 1958

The extensive building program on the campus of Stout State College is progressing well, reports Dr. Verne C. Fryklund, president. Additions to the recently-completed residence hall for women, a new student union, a second home management residence, and a multi-story shop building are either underway or well into the planning stage.

Providing room and lounge facilities for an additional 192 girls, the dormitory wings will be ready for occupancy in September. Food service will be handled in expanded facilities of the present residence hall. Accommodations for 327 coeds will then be available in Bertha Tainter Residence Hall.

Construction of a new \$525,000 student union will be begun this spring, with occupancy planned for September, 1959. Long-needed to replace the present cramped, outmoded student union, the new

building is designed to be a 'student's home away from home.' Thus, under campus supervision, will be provided excellent recreation facilities for students, a ballroom for large social events and similar accommodations.

Expanded enrollment at the college has also necessitated a second home management residence, now in use under the supervision of Miss Frieda Kube of the Stout faculty. Here coeds of the School of Home Economics have sparkling new facilities in which coeds learn homemaking skills. This home management residence was created by remodeling, redecorating and refurnishing the former infirmary building.

In addition to the aforementioned construction, a multi-story shop building is being planned. It will be located on the site of the former Dunn County Agricultural School.

## HOMEcoming, OCTOBER 25, 1958

Dear Fellow Alumni:

1958 Summer Session

Your national office has been very busy during the past semester gathering alumni news for this newsletter. Your response to our mailings has been very gratifying and as a result we are now able to present you with the most comprehensive list of news of former Stout students that has ever been compiled. We sincerely hope that you enjoy reading about the campus, your former friends and classmates. We also hope that you will take this opportunity to renew many former friendships. While space did not permit listing complete addresses of each person, we in the national office will, upon request, provide you with any specific addresses that you may desire. Remember your national office is organized and maintained to serve you.

Again, thank you for your cooperation and best wishes for a successful year.

Sincerely,  
Bob Rudiger, Alumni Sec.

| May 31         | Commencement       |
| June 6         | End of School Year |

Registration for summer session will take place on Monday, June 23; classes will meet Tuesday, June 24. This six weeks session closes on Friday, August 1. A two weeks post session is scheduled from August 4 to August 15.

The Wisconsin State Board of Vocational and Adult Education Trade and Industrial Workshop, Institute X, will be held from June 16 through June 20.

The School of Home Economics will offer 20 courses in the 1958 summer session. Offerings will include courses in the departments of Clothing and Textiles, Food and Nutrition, Family Life, Related Art, and Home Economics Education.

Of special interest is a new course on the graduate level, Clothing Today's Family. School Food Service offered in the department of Food and Nutrition and Housing in the Related Art Department, should interest Stout graduates. Mrs. Alta Bethke will be on campus again to teach her very popular courses, Design and Construction of Slipcovers and Design and Construction of Lampshades and Draperies.

Last year's summer session was especially pleasant because women students could be housed in the new dormitory on the lake, Bertha Tainter Hall. This year the same arrangements will be possible, and two new wings to the dormitory will be nearly completed.

The School of Industrial Education will offer 27 technical courses. These are to include Tool and Diemaking, Drafting, Woodworking, Metalworking, Radio, and Electronics. Also listed in the entire summer session schedule of classes is a complete range of academic and professional subjects.

The Graduate Division offers a full program of courses in the academic, professional and technical fields. This program is planned to meet the needs of students desiring emphasis in supervisory, administrative, or technical areas.

A summer session bulletin will be available April 1, for your copy, write to the following person: Director of Summer Session, Stout State College, Menomonie, Wis.

\*News of the Classes\*

- 1903 - Harvey G. McComb retired in June, 1956 and lives in West LaFayette, Ind.

ATTENTION ALL STOUT ALUMNI

A total of 988 calls for Stout State College graduates, but only 203 available graduates to fill those positions!

A salary range between \$3600 - \$4600 for first year jobs of bachelor's graduates with no teaching experience. A range of between \$4050 - \$6700 for persons holding the masters of science, depending upon experience!

Prospects for the future of Stout State College graduates to remain favorable, especially in the field of teaching. Graduates also continuing to have a wide choice of positions and locations!

Yes, young people who receive their education at Stout have a bright future of professional advancement, financial reward, and opportunity to serve their nation and humanity. And often it is the advice of a satisfied, successful alumnus that guides a qualified student to the Stout State College campus.

Therefore, this year again the Alumni Association, admissions and placement office, and student personnel service staff are joining forces to attract appropriate students into Stout's fields of specialty, where acute shortages exist, and at the same time to be of maximum assistance to such students by preparing them in an area of great personal and professional opportunity.

As an alumnus, you are in an excellent position to be aware of college-caliber students and to call them to our attention by means of the form attached below. Such young people recommended by you will then be sent informative material describing educational opportunities at Stout, plus the necessary application blank. Students in actual need of scholarship aid will, upon receipt of scholarship blanks returned by them, be considered by the faculty scholarship committee.

So please think over the college-caliber young men and women with whom you come in contact and to whom you believe Stout and its fields of specialization would appeal. Remember that every Stout graduate does not have to become a teacher, worthy as that profession is. Dietetics, institution food management, home economics in business, or the new industrial technology curriculum might be the answer for a boy or girl interested in that type of endeavor but not desiring to teach.

Then fill out the attached blank and return it to the campus. Your action may start a student toward both college and a worthwhile, satisfying career.
